

To: The President of the United States, The U.S. Senate, and The U.S. House of Representatives

Subject: **Standing with Us For Real Food Safety and Saying No to GMO**

Letter: My Elected Representatives and President ,

Not on my Shift! I affirm, I stand up, I say yes to Nature's Original Technology of pure air, water, food on land and sea. The chain of whole being is now being restored. Uncle Sam shall marry "Auntie GMO!" Ten Million Strong in America are joining with the future leaders of the world, our children. We--all of us who care, now declare we are returning to the beat of nature.

We applaud all our elected legislators in Washington for educating themselves about real food safety.

On this day of October 10-10-10 at 10 am, we plant a new root.

There is no shortage of souls who will plant the new ground. We call on you, our elected representatives, beginning in the Senate, to hear our voice.

We proclaim: Government is no longer a spectator sport.

We stand with you to find your own strength to stand with us.

Say Yes to real food safety. Say yes to real food and encouraging each of us to grow a bit of our own food and honoring our remaining micro farmers.

We declare that we can all work together that not one more innocent person is harmed by eating contaminated food that comes from a contaminated industrial food system that asks to be restored to sanity.

Sanity begins now with me.

I say no to GMO on this day.

I join with you to fully chew on Food Safety. A National Conversation begins now.

We shall listen to all sides of issues of Food Safety.

We are here for all of us to close the gap between GMO and Organic Lovers and all voices in between.

We are here to create a bright green future.
