This has been the best kept secret from the American people as it has turned the America people into human trafficking by the system. The banking system and to the Court System and to the Bar Association's has kept this hidden from the American people in order to enslave them and create human trafficking.

You have to know the historical side before you can fix the problem. You have to know where the problem started and how it came about before you to fix.

How the people became aliens in the United States of America. Here is a timeline in history of it. This breaks it down to as far back as 1867 up to present date to the bankruptcy and the foreclosures of 2013. What we are about to talk about and layout is historical records for the library Congress and all information is validated by the Statutes at Large, Treaties as records By Congress.

Statutes at Large, Treaties Vol 15 "CH III An act to provide for a more efficient government in the rebel states March 2, 1867" This is founded in volume 15 of the Statutes at Large starting on page 428. The basis of this is where the federal government when it to the south and it overthrew the southern government and forced them to take on the federal citizenship of the federal government. The northern states also had to come in compliance with this as well. This was the start the 14th amendment.

The 14th amendment is found in volume 15 Statutes at Large, Treaties, 15 stat starts on pg 706 and on pg 709 also in it addresses the 14th amendment which created two different types of citizens the federal citizen of the state nationals. The 14th amendment was passed July 9, 1868. If one is to read the 14th amendment and read sections 2 and 3 it shows that it talks about public offices and has nothing to do with this citizen side of the state. This is the beginning of the separation between a federal citizen and the national citizen

Statutes at Large, vol 16. Next came The Act of 1871" CHAP LXII Act to provide a Government for the District of Columbia" pg 419 creating the District of Columbia creating that 10 mile square, This goes in shows how they created the District of Columbia. Washington and Georgetown was the two major cities that they divided up and made the District of Columbia out of. When this was done the District of Columbia was listed as a federal territory in a federal

district. When they did the survey plots the 40 stones that went around that 10 mile square on the inside of the stones and states jurisdiction of the United States on the backside of the stone the list Maryland or Virginia. Thereby separating the federal district or territory from the states. These 40 stones still exist today as a survey plots.

Statutes at Large Vol 38: CHAP. 6.-An Act To provide for the establishment of Federal reserve banks, to furnish an elastic currency, to afford means of rediscounting commercial paper, to establish a more effective supervision of banking in the United States, and for other purposes." Starting on pg 251 Moving up to modern time to 1913 Congress created what is known as the Federal Reserve Act of 1913. That Federal Reserve act created what is known as Federal Reserve notes. These notes for all intents and purposes was created under section 16 of this Federal Reserve act as internal banking notes only and for no other purposes authorized.

SEC. 16. Federal Reserve notes, to be issued at the discretion of the Federal Reserve Board for the purpose of making advances to Federal Reserve banks through the Federal Reserve agents as hereinafter set forth and for no other purpose, are hereby authorized. The said notes shall be obligations of the United States and shall be receivable by all national member banks and Federal Reserve banks and for all taxes, customs, and other public dues. They shall be redeemed in gold on demand at the Treasury Department of the United States, in the city of Washington, District of Columbia, or in gold or lawful money at any Federal reserve bank.

Statutes at Large Volume 40 1917 "CHAP. 106 - An Act To define regulate, and punish trading with the enemy for other purposes October 6, 1917." starts on pg 411, You will find the trading with the enemy act dealt with World War I. This act is what defined enemies of the state. (It is where unbeknown to the people this is when the Federal Reserve bank force Federal Reserve notes to be used in Germany and removing the German money replacing it with Federal Reserve notes) thereby making them an enemy of the state. Under section 5 subdivision b of this trading with the enemy act now allows the president of this country to declare a state of emergency at any given time and to confiscate the currency gold, silver and replace it with something else FRNs. This is the beginning of it they set it up and World War I.

"Sidebar the history 1914-1919: Fed Policy during the War When World War I broke out in mid-1914, U.S. banks continued to operate normally, thanks to the emergency currency issued under the Aldrich-Vreeland Act of 1908. But the greater impact in the United States came from the Reserve Banks' ability to discount banker's acceptances. Through this mechanism, the United States aided the flow of trade goods to Europe, indirectly helping to finance the war until 1917, when the United States officially declared war on Germany and financing our own war effort became paramount." This too has been a very well-kept secret from people.

Statutes at Large vol 48 1933 To provide relief in the existing national emergency in banking, and for other purposes .Starts on pg 1 This created the state of emergency clause and the banking act emergency required that all gold and silver be relieved from the American people under the Trading with the Enemy Act of 1917 on October 6. This act under title I section 2 forced to people into an alien enemy status as we came under the Federal Reserve System of accepting their Federal Reserve notes and place of our gold and silver. Thereby stripping the people of any means of paying the bill, knowing that the Federal Reserve act of 1913 created the Federal

Reserve note which was never intended to be put into circulation to the people. Therefore the people had no means of paying or buying property merchandise. Under the state of emergency clause it placed all property homes, children, credit cards and etc. in the hands of the government.

Statutes at Large Volume 49 1935 of the statutes at large is where you'll find the Social Security act starting on page 620. Going down into section 501 & 502 it talks about the children. It goes back and shows that the government placed a \$1.8 million value on every life birth in this country. It shows that the state is to receive every fiscal year so much money per person off that birth certificate.

Volume 50 Statutes at Large 1940 now created what is known as the Alien Registration Act of 1940 To prohibit certain subversive activities; to amend certain provisions of law with respect to the admission and deportation of aliens; Starts on pg 670 this is the law that created the birth certificate and require the fingerprinting and registration of aliens; and for other purposes under title 8 United States Code section 1302. What this was they created the birth certificates and registration of every birth and to take footprints to prove that live birth for the Social Security act of 1935. This act is also known as the Smith act 1940 that also dealt with anybody from overthrowing or teaching in educating subversive documents to overthrow our government.

Volume 59 Statutes at Large International Organization Immunities Act 1945 starting on page 669. Goes back and shows that United States Congress placed all public offices under UN jurisdiction and under UN control. Thereby again creating a separation again between public offices and American people. Code of Federal Regulations 22 foreign relations. This is where the oath of office foundations that under 92.12 to 92.30 Key word here foreign relations. USC code title eight alien and nationality section 1481. Shows that and labor has oath of office has to relinquish their national citizenship. Keyword alien and nationality.

Now to address the problem of the foreclosures here is a brief history of the facts that if the banks the courts in the lawyers would follow the law the way they are written as they were created by Congress would not have a foreclosure issue. The Federal Reserve act created internal currency. The banking act of 1933 required the people to surrender lawful money gold and silver. The 1935 Social Security act of \$1.8 million value per child being born. Alien registration act of 1940 created the birth certificates to validate every living child in the net worth of the child. What parents was not aware of on that birth certificate it was a mother's maiden name that gave birth to the child it was a mother's married name that surrendered that child over to the state for state property.

Congressman Lindbergh 1917 Congressional House Report of February 12, 1917. On page 3129 left-hand column number 12 Congressman Lindbergh explained that the people of the United States was to credit line for this country. The basis of this in the 1860s the government came in and removed the gold and silver offer the people again and gave them what is known as greenbacks replacing the gold and silver. It was the labor of the people that gave forth to the greenback, same as today with the Federal Reserve notes since 1933 state of emergency. This is when the government removed the gold and silver from the people and replaced it with Federal Reserve notes.

Congressman McFadden on the Congressional House records of June 10, 1932 on page 12598 second column top paragraph began to explain that the Federal Reserve was running a monopoly by stealing the wealth of the people and give them Federal Reserve notes and place of gold and silver knowing that the Federal Reserve note was not money but a credit line. McFadden made this very clear on the floor Congress. McFadden also began to explain that it is your signature that is to collateral and not property are the merchandise. Mr. McFadden began to explain that if a Scottish distiller was to sell whiskey here in the United States to a bootlegger the bootlegger was only required to sign his name across the bill and then the Scottish distiller were turned it into the Federal Reserve bank thereby create Federal Reserve notes and leaving the United States obligated to pay the bill. Here is the proof that your signature page or bill mortgages and car loans and that your signature is what the court steals in order to In your birth certificate account in order to draw money out of your account.

Congressman McFadden on the June 10, 1932 congressional records also proceeded to explain the amount of gold that was handed over to the Federal Reserve through a period of years on page 12600 on the right side the page towards the bottom and gives you dates and how much gold was given to Germany in 1928 the first amount was over 60 billion, and in 1929 2nd amount over 58 billion and in 1930 3rd amount over 13 billion gold. The question now is when did United States have the Great Depression? This explains the 1933 bankruptcy of our government handed over this much in gold to the Federal Reserve along with all property this explains why the Social Security act and the registration act was created and placed a dollar worth on every living being here United States.

Congressman McFadden in 1932 on the floor Congress in Congressional House records of 1933 March 9 on page 83 stated that the money would be worth 100% on the dollar and it is backed by the credit of the nation and that it would represent a mortgage on all homes and property. The key word here is would represent.

Because this was done over a period of years unless you have the historical documents and the history behind it there is no one piece that comes in and shows how American people became aliens.

Ladies and gentlemen you are all looking for that silver bullet but you're forgetting one thing what is a silver bullet made up. It has a cartridge; it has cap, powder, and a silver bullet it is made up of many parts just as the fraud upon the people.
