

Free Alternative Program For Cancer Treatment
Natural Alternative Nutritional Program is on Trial
Proposed Trial Will Include
IV Laetrile – B17, Keith Brewers IV High PH Therapy, IV Vitamin C,
IV Ozone, Hyperbaric Oxygen Therapy, just to name a few
For 1500 Lucky Recipients 750 men and 750 women.

Reporter and student Beatriz Gomez. Dated 1st January 2011

Walking along the beach in **Cartagena** I was looking for a story to write for my mid semester project. After talking to several people I stumbled upon an interesting gentleman named Pablo Hernando, and referred to as **DrPablo** by the loving people surrounding him at the beach. These people all have or had cancer and are undergoing the **XYZ-Wellbeing ReTreat Facility Program** in a Temporary Accommodation here in Cartagena Colombia at a cost of \$100,000.00 and although they haven't completed their program yet, they felt very happy with the service and treatments they had undergone.

Some claimed that the Cancer lumps had completely gone or softened. Bone cancer that was aggressively growing had completely stopped after the first month. Breast lumps that had metastasized to the lung completely gone after two months, mouth, throat and brain tumour shrinking after one month, lymphoma lumps ½ in size month one. These neoplasm's stories were astounding. So I choose this interesting, humble, sophisticated looking, olive skinned, charismatic man for my story, and what I got was so much more than I expected, I think you will agree with his patients, he is a special person, please read on.

DrPablo Hernando from **XYZ-Wellbeing Cancer ReTreat Facility** is proposing that a **Free Cancer Trial** be done to once and for all take away the myth of Alternative and Complementary Therapies.

"Having worked for 11 years in the industry, I believe with-out question many people suffering the turmoil of decision making over what to do when the traditional chemotherapy has failed, or better still, should I be doing the Alternative Therapy First?

In most cases the answer is yes! DrPablo said.

This trial will make it easier for both the people with cancer and their loving family to understand."

I asked Pablo for some details of what cancers would he include and the following is a summary of his notes of the not yet finalized list.

1. **Brain Cancer**
2. **Neck and Above Cancer**
3. **Breast Cancer**
4. **Large Cell Lung Cancer**
5. **Stomach Cancer**
6. **Pancreas Cancer**
7. **Other behind Ribcage Cancer**
8. **Small – Large Colon or Rectum Cancer**
9. **Liver Cancer**
10. **Prostate Cancer**
11. **Ovarian Cancer**
12. **Other Cancers below the Ribcage**
13. **Bone Cancer**
14. **Skin Cancer**
15. **Other Cancers in the legs**

16. Lymphoma Cancers

Excluded: leukaemia and some small cell cancers to be considered after this first trial.

Primarily what he proposes is that the above groups with Cancer then get categorized into the following:

A) Primary only = Size = Aggressiveness = Sex = Amount of Cancer = Patients Health

Hypotheses! If the cancer went with-in 7 days would the person survive?

Yes = intensive three month program in clinic trial

(Continue Application)

No = three months home treatment self funded, followed by the in clinical trial

(Re Apply if improvement is seen based on Three Month Home Program Results)

Metastasized Cancer = Size = Aggressiveness = Sex = Amount of Cancer = Patients Health

Hypotheses! If the cancer went with-in 7 days would the person survive?

Yes = intensive three month program in clinic trial (Continue Application)

No = three months home treatment self funded, followed by the in clinical trial

(Re Apply if improvement is seen based on Three Month Home Program Results)

Then The Application Continues

- B) Age 100 point ID =Drivers Licence and Birth Certificate and Photo ID
Accountant Financial Statement to determine if the family can afford the flights etc and it will not leave other family members in financial difficulty.
- C) The health of the patient. (**Special assessment form**)
- D) Any treatments done to date. (**All reports to date and any special requested reports**)
- E) The family's acceptance that this is a trial, expectations-outcomes are unknown.
- F) Letter from local oncologist confirming diagnoses with accompanying evidence and requested blood work and reports.
- G) Letter from a psychologist stating that the patient and family are aware and understand what a trial is, and that they understand our Disclaimer, For Your Information Sheet, published on the website and that them and their family will except our choice to discontinue, modify and or change treatment if we choose. That the applicant and family are of sound mind and in agreement for the patient to do this trial.
- H) They can afford any fees, if applicable such as travel and accommodation in the medical centre if not covered under the trial. This rate would be similar to what most modern hospitals charge for an Intensive Private Room (up to \$1000 USD per day, however we are negotiating a place that could be as low as a few thousand a week). The facility we propose to use will adjust the fee based on an income test of the family and assets of the patient and partner **if it is not funded** by us, if applicable.
- I) It is also proposed, again based on the income test that those that become cancer free agree to pay a 10% of income over the following 5 years to cover ongoing follow-up and offset our costs so we can offer the program to more people if results show benefit.

Where would this trial take place?

“At our new clinic when completed in Cartagena Colombia, this would halve the accommodation cost, or if not opened by the time we start, any other care centre or hospital that has the facilities. “Hospitals may submit “Offer to accommodate and support trial” he said. The 300 acre property proposed is being

assessed at the moment DrPablo said, “with the building design underway, we hope commencement will be later this year.”

What sort of accommodation is there?

“The rooms are fully self contained units, with a small extra room and bunk bed off the side for a family member or friend. Fresh Juices are delivered to your room and all meals will be catered for.”

Are the meals organic?

We try to only supply organic, however until our own private gardens are giving us produce, we can only say that most of the food is organic and it is all purchased freshly each day, from the local markets.

THE TREATMENT

After your application is acceptable, keeping in mind the normal cost of this treatment is \$100,000 with a 50% refund or repeated program offered if not successful. You will arrive and after settling into your room, done on a Friday, a tour of the facilities, understanding meals, cleaning, etc on Saturday, Sunday is induction and a 2 x 2 hour Learning Workshop.

Stage 1

The 1st stage of treatment starts on Monday and you, along with another 50 patients all have a roster to follow. [Laetrile – B17](#), [Vitamin C Intensive 120grams](#) followed by [Hyperbaric Chamber Treatment](#), Hyperthermia Treatment along with a few other special treatments, herbs and poultices.

Blood tests and scans are done as required weekly and at the end of each 21 days. Every day of therapies is arranged so you don't overdo things, and include the very intensive treatments alongside what we call pampering treatments such as massage and spa's.

This is continued for THREE WEEKS, then a week's rest, some site seeing, dancing and calibrating life goes on. This is also visiting time and open house to the rest of your family.

Stage 2

Stage two, Induction is repeated as at stage 1, along with the workshop. Those at stage two will meet those starting stage one. Again questions and answers and the tour etc alone with a detailed workshop.

The 2nd Stage of treatment is very different from Stage one in that many of the other therapies stop or slow down, except the laetrile. Emotional Therapies are added and treatment commenced. This is also the [High PH Treatment](#) and Ozone IV Treatment Stage. This is the aggressive cancer fighting Therapy in this stage.

Depending on the patient, the [High PH Therapy](#) is done for either 21 days in a row or 11 days then 3 days rest, then a second 11 days. The three days in the middle would only have Hyperbaric Treatment, pampering and relaxation massages and Spa's if recommended.

Stage 3

After a week's brake from therapies, a full P.E.T. Scan is done, blood work are retested to see how things are progressing.

Based on this report, a program will be designed for stage 3, expected rebuilding [Oxygen Therapies](#), more Vitamin C, possibly a little ozone etc.

Sometimes we may order a biopsy to see if any cancer left is alive or dead and if so any changes to it.

After the third month 21 days the clients leave that weekend, the care facility is fully disinfected, Ozonised air purifiers ran for 3 days with no one in the building, this is to keep the facility clean from what most hospitals around the world now have out of control, Golden Staph. Said [DrPablo](#). (Staphylococcus aureus, or S. aureus, is sometimes called 'golden staph'. It is a common bacterium that lives on the skin or in the nose. It can cause a range of mild to severe infections and may cause death. Some strains are resistant to antibiotics. Hospital patients are more likely to be infected by S. aureus because of surgical or other wounds.)

I then asked [DrPablo Hernando](#) about the funding, he replied:

We hope that a philanthropist comes forward to help with this much needed research. The foundations of the program have been tested. DrPablo Said, However never in a controlled environment, with many at the same time with the same cancer has ever been done; so much will be learnt from such a trial.

Possibly it would be NEWS WORTHY and a documentary of all the patients would be a very high rating TV documentary, possibly this could attract millions to make this happen. I just hope in my life time and with my life experiences, I can be a part of what I think will be an historic moment in medicine and Cancer Treatment.

I then asked [DrPablo](#) for a final comment:

This is a draft recommendation to our team of caring people who want to make a change in cancer treatment options. It will come and attract criticisms and possibly slander as alternative practices often do. But how do we get to prove or disprove a program without this type of trial?

It doesn't matter if you are rich or poor, old or young, cancer will sneak its way into your life. Not one family alive today in modern countries will avoid it. So I ask you simply this, what are you waiting for? The return will not be in cash; however it still will be the best investment you ever make for you and your families future wellbeing. People are driving cars worth \$100's of thousands. If the car was to break down, I believe they wouldn't be walking for long!

It will teach us how to avoid or pre-treat potential cancers if we are successful. The one funny thing about prevention when people do it, they never know if the investment worked for them or not.

Something to think about... The Cancer Fundraising Machines have put millions into the same old thing; the only main benefit to come out of that investment has been early detection.

Give Alternative Therapies a chance and I believe no-one will be disappointed except those making drugs for the traditional programs of chemotherapy and radiation.

God Bless all those with cancer and also god forgive those who have been blinded by over education. (DrPablo) If you had been a witness to what I have seen, you would be like me, determined to prove it!

If you want a [free consultation](#) go to the contact us link on the website and click on the [Free Consultation Form](#), designed for people with cancer to apply for the home program or go on the waiting list for the trial.

DrPablo gave me some hand outs and warnings that he asked be put at the bottom of my interview, they are below.

Important Information

Laetrile, Vitamin B17, Amygdaline should never be given in a drip mixed with Vitamin C

High PH Therapy should only be done at home if you have a 24 hour consultant that is contactable helping you.

Before doing Keith Brewer's or anyone's online program it is a must to strengthen your body and immune system one month before High PH Therapy.

Below is a good healthy support shake that everyone should take, it will not put on weight, however we have witnesses in most cases it does stop weight loss, often seen in Cancer Patients.

Image of Shake Products, contact us for a Free Copy of how to make This Shake on the [quick question form on the website](#).

First thing in the morning is a glass of filtered water with a squeeze of lemon
Then you have the below shake with your morning supplements, or take them after this
Mix the below in a blender, see Manual for instructions

1	Notes	Shake	Morning Shake	Afternoon
2		Vital Greens 600gm (VG600)	1 T-Spoon	
3		Udo's Beyond Greens 255g Powder (UDOBGreen)	1 T-Spoon	
4		Recharge	1 of 1/2 T-Spoon	
5		Maca Gold Powder 300g (MG300)	1 T-Spoon	
6		OxyMin® CalM 230g Highly Absorbable Calcium & Magnesium (OMC230)		1 Small T-Spoon
7		Jungle Force Juice Concentrate 1L (NGJungleJuice)	10ml	5ml
8		OxyMin® Gold Organic Colloidal Minerals 500ml (OMG500)	5ml	5ml
9		Udo's DHA Oil 250mL (UDODHAOil)	5ml	5ml
10		OxyMin Concentrated Cartilage	5ml	5ml

Add to a juice

T-Spoon is a small spoon, table spoon - sugar spoon

Local superm arket you can purchase the following and add to your shake
LCA meal = Linseed Sunflower and almond mix
Coconut milk

Add a banana
or
Add fresh fruit

**Register your interest in doing the trial,
or paying a few thousand and starting a home program now...**

https://fs7.formsite.com/xyz-wellbeing-questions/form8/secure_index.html

The XYZ Wellbeing Cancer Facility is also looking for Investors. Expecting a return of over 50% per annum with-in 3 years. With the company able to buy back your shares if it pays you up with a 100% return per annum. That even has me interested. They need 3 million to get up and running and another few million to do this trial, then the workload will sore... After seeing what these clients think of the rogram has me convinced.

Investor Registration

If you find any misinformation or inappropriate material from these links, please report them to us immediately.

**All information is intended for research and educational purposes only,
and no claims, either real or implied, are being made.**

Our **Cancer Research Programs** are unique,
as we combine synergistic many **Alternative Programs**.
We will publish our Research Results from the [XYZ-Wellbeing ReTreat Facility](#),
as this will be a controlled environment, something not available to us in the past.

Government agencies would rather we withhold these stories from the public because, allegedly, they constitute “**unproven medical claims.**”

**However, as stated previously,
the only claims we make are that this information is authentic
and that the people who wrote them or videoed them were genuine people
and that it is their information as they said it, felt it and believed it, and they are real stories and not
actors or made up stories.**

They were not paid or offered benefit for sharing their experiences.

**Truth is not truth unless it is the “whole” truth,
and these health success stories and scientific studies are just as much a part of the truth
as any success story or scientific study experienced by orthodox medicine.**

**Free men and women are entitled to have access to
“all” the information available so they can make intelligent and informed choices in matters of their own
health.**

**Therefore, we are sharing these success stories as an exercise of our right to freedom-of-speech and your
right to freedom-of-information.**

Enthusiastic Testimonials on alternatives or from our past clients can also not be seen as any assurance that you
will get the same result.

The extent of the response to treatment varies from patient to patient,
even with similar diagnoses, and/or age and sex, as the internal body environment is unique to each individual
patient.

Notwithstanding, the external body contamination and stresses from the past and present are also very
individually unique, as will any responses, if any, to treatment.

Please also read our disclaimer, find the link at the bottom of each page.
